CAREER OBJECTIVE

Motivated Computer Science undergraduate with a strong academic record (CGPA 8.71) seeking an internship opportunity to apply foundational programming skills in Java, Python, and C, gain practical industry experience, and contribute to real-world software projects while continuously growing as a developer.

EDUCATION

B.Tech in Computer Science & Engineering | Ashoka Women's Engineering College, Andhra Pradesh **CGPA: 8.71**

Expected Graduation: 2028

Intermediate - MPC | Sri Vasavi Junior College for Girls, Andhra Pradesh **87.2%**

AP Board | Year of Passing: 2024

EXPERIENCE

Web Development Intern | Cognifyz IT Solutions Pvt. Ltd.

May 2026 – Jun 2026 (1 Month)

- Completed a one-month Web Development Internship, gaining practical exposure to real-world web development tasks and industry workflows.
- Recognized for strong coordination, effective communication, and consistent attention to detail throughout the internship.

TECHNICAL SKILLS

Languages	Java (Basic) • Python (Basic) • C (Basic)
Web Basics	HTML (Basic) • CSS (Basic)
Core Concepts	OOP Basics (Basic) • Collections (ArrayList, HashMap) (Basic) • Exception Handling (Basic) • File Handling (Basic) • Date & Time Handling (Basic) • Input Validation (Basic) • Problem Solving
Subjects	Operating Systems • DBMS • Data Structures
Tools	VS Code • Eclipse • GitHub • Git

PROJECTS

Library Management System | *Individual Project* | Java | GitHub

- Developed a console-based Library Management System in Core Java simulating real-world operations like issuing, returning, and searching books.
- Applied Encapsulation, Inheritance (StudentMember extends Member), and Polymorphism (method overriding).
- Used ArrayList and HashMap to manage books/members; used LocalDate & ChronoUnit for due-date tracking and overdue fine calculation.
- Designed custom exceptions (BookNotFoundException, BookAlreadyIssuedException, BookNotIssuedException, InvalidMemberException) for robust error handling.
- Built modular utility classes DateUtil and FineCalculator to organize business logic.

GitHub: <https://github.com/karupothulamalliswari3112/LIBRARY-MANAGEMENT-SYSTEM>

Advanced Student Result Management System | *Individual Project* | Python | GitHub

- Designed and developed a menu-driven Python application to add and manage multiple student records interactively.
- Calculated total marks, averages, and automatically assigned grades based on predefined performance thresholds.
- Implemented file handling to store all student results permanently in a local file (results.txt), ensuring data persistence across sessions.
- Applied input validation techniques to ensure accurate, error-free data entry; identified top-performing student (topper) using comparison logic.

RELEVANT COURSEWORK

- Operating Systems – Database Management Systems – Data Structures (Basic)

CERTIFICATIONS

- The Joy of Computing Using Python - NPTEL – Solo Learn Python Developer Certification
- PrepInsta C & Java Course Completion – Web Development Internship Certificate, Cognifyz IT Solutions

SOFT SKILLS

✓ Quick Learner ✓ Problem-Solving ✓ Team Collaboration ✓ Time Management

ACHIEVEMENTS & PARTICIPATION

- Competed in DefendX (Cybersecurity Challenge) and Technical Quiz at RGM College of Engineering & Technology.
- Represented college in Cricket and Kabaddi; certified in Yoga.
- Member, Web Development Cult — Ashoka Cult System (ACS-GC); participated in technical activities and skill-building sessions.
